Request for One Time Supplemental Funds.

The program is requesting one-time supplemental funds in the amount \$179,840.00 for the following projects. \$34,120 for a shade covering on the playground that was damaged during a storm. This cover provides the children with crucial shade from the sun while playing outside. The program is requesting \$86,450 to replace the tin on the roof which is in dire need of repair. The roof on the center is the original roof, the building is provided by the county school system as in kind and is the only building in the remote area serviced by the program. The program has occupied the building for thirty one years. During the last rainey period the roof is now leaking in the gym area which prohibits children from accessing an indoor gross motor area during rainy periods. The program is requesting \$7,570 to move the staff bathroom from the kitchen area to an existing storage area allowing for the program to be in compliance with local environmental requirements.. This move will enable staff and visitors to access the bathroom without interrupting kitchen duties and adhere to health and safety guidelines. The program is requesting a sum of \$29,450 to install an outbuilding to house all heat/air regulated supplies which will be removed from the storage closet to allow for the staff/visitor bathroom. In direct cost in the amount of \$22,250 The program is requesting a waiver for the required non federal hare at this time Policy Council and Board approval is forthcoming. Your consideration in this matter is greatly appreciated.

UCHRA Van Buren County Head Start Carryover Request

Upper Cumberland Human Resource Agency Head Start is requesting at this time the use of carryover funds in the amount of \$12,059. We are requesting a carryover of these funds in the amount of \$4,284 in supplies category for additional supplies for program use as well as \$1,809 for indirect, \$2,686 in contractual category for additional materials for the purpose of addressing disability and mental health issues in the classroom with children who are experiencing behavioral outbursts, and \$3,280 from other category to continue the backpack feeding program to aid the children and families enrolled in the program. Your immediate attention and consideration in allowing the program the opportunity to carry over the balance from FY21 requested is as always greatly appreciated. If you have any questions you can contact me at eblaylock@uchra.com (423-881-5182).

Respectfully,

Only one child at a time is allowed at each sink, and each sink is sprayed with bleach solution between uses to eliminate germs.

Section 1: About the CCR Family Outcomes Survey

The CCR Family Outcomes Survey was designed to measure parent opinion on how much they and their families have benefited from Head Start. The survey is fully aligned to "The Head Start Parent, Family, and Community Engagement Framework." That framework identifies seven Family Engagement Outcomes. The CCR Family Outcomes Survey measures Head Start's impact in each of these Outcome Areas:

Family Well-being

Positive Parent-Child Relationships

Families as Lifelong Educators

Families as Learners

Family Engagement in Transitions

Family Connections to Peers and Community

Families as Advocates and Leaders

The survey is composed of six background questions, three questions about the overall helpfulness of the program, two open-ended questions, and 49 detailed questions referred to as Outcome Elements. Each Outcome Element is aligned to one of the Outcome Areas. Combining the data from multiple Outcome Elements provides a richer perspective on each of the Outcome Areas.

The CCR Family Outcomes survey was written at a 4th grade reading level to ensure that the questions were clearly understood by all parents. Repeated focus groups conducted in both English and Spanish confirms the validity of the questions and the survey design.

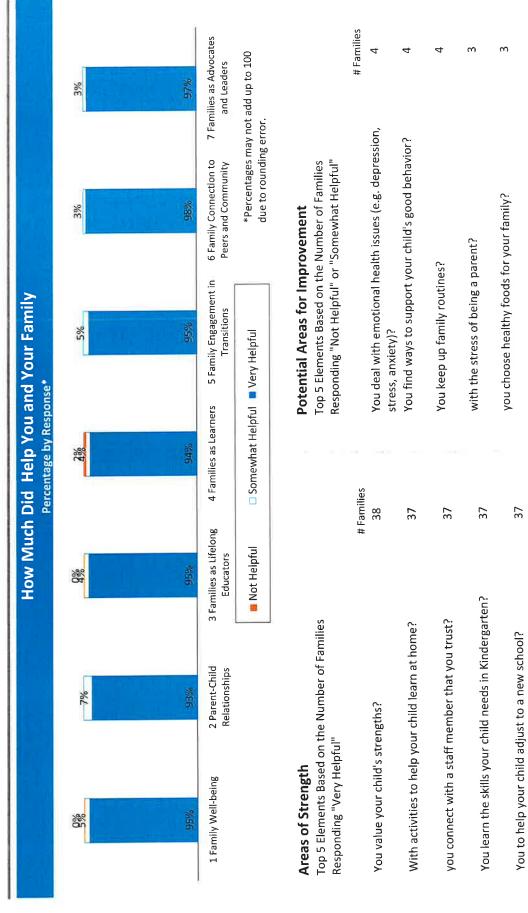

For each of the Outcome Elements, respondents can answer "Did Not Need Help", "Not Helpful", "Somewhat Helpful", or "Very Helpful". The "Did Not Need Help" answer is critical to include for the Head Start setting because the family supports provided by Head Start programs are both diverse and highly individualized. A handful of parents may receive extensive services in an area that most parents do not need help. Thus, when rating the helpfulness of the program we exclude parents who did not need help in a particular area.

Given that the vast majority of Head Start parents, when asked, talk enthusiastically and at length about how their families have benefited from Head Start, we recommend that programs consider any Outcome Area or Outcome Element with less than 50% of parents Very Helpful in need of critical improvement. This is a rough rule of thumb.

The CCR Family Outcomes Survey was designed, built, tested, and copyrighted by CCR Analytics www.ccr-analytics.com.

To: Mark Farley <mfarley@ucdd.org>, Sherry Thurman <bids@ucdd.org>

Please disregard the previous email regarding doing an email vote for the UCHRA line of credit. Matt Means has extended it until April 15 which will be after our next board meeting. So, we can just add that to the agenda.

Thanks, Ginger
